Objective:

Dynamic Frontend Developer with 6 months of hands-on experience and a strong command of HTML, CSS, JavaScript, and React.js. Proficient in backend technologies including Node.js and Express.js with expertise in CRUD operations. Demonstrated ability in creating impactful web applications, including a movie ticket booking website, and contributing to various frontend projects.

Education:

Bachelor of Arts in History, Sadakathullah Appa College, 2020-2023.

Skills:

- Frontend Development: HTML5, CSS3, JavaScript (ES6+), React.js
- Backend Development: Node.js, Express.js, and MongoDB
- API Development: CRUD Operations
- Version Control: Git
- Problem Solving and Debugging
- Strong Communication and Collaboration Skills

Experience:

Frontend Developer | [Brassy Academy and Consulting], [Tirunelveli] | [April 2024 – Present]

- Developed a movie ticket booking website from scratch using HTML, CSS, and React.js, integrating user authentication.
- Created RESTful APIs with Node.js and Express.js to support frontend functionalities, implementing CRUD operations for seamless data management.
- Collaborated closely with designers and backend developers to ensure smooth integration and optimal performance of frontend and backend components.

Project:

- **Movie Ticket Booking Website:** It's a sophisticated online platform designed to streamline the process of purchasing movie tickets. It provides users with a seamless journey from login to movie selection, offering an intuitive interface and essential features for a convenient booking experience.

  ### Technologies Used:
  - Frontend: HTML5, CSS3, JavaScript
  - Framework: React.js
  - Design: Bootstrap
  - Deployment: Vercel

- **Movie List API:** It's focuses on developing a robust backend API to support a frontend movie listing application. This API serves as the foundation for retrieving, storing, and managing movie data, enabling seamless integration with frontend components for a dynamic user experience.

  ### Technologies Used:
  - Backend Framework: Node.js with Express.js
  - Database: MongoDB
  - Deployment: Vercel

Languages:

- Tamil
- English
